

STRATTEC Security Corporation Reports Fiscal 2022 First Quarter Operating Results

October 21, 2021

MILWAUKEE, Wis., Oct. 21, 2021 (GLOBE NEWSWIRE) -- STRATTEC SECURITY CORPORATION ("STRATTEC" or the "Company") (NASDAQ:STRT) today reported operating results for the fiscal first quarter ended September 26, 2021.

First Quarter

Net sales for the first quarter ended September 26, 2021 were \$100.3 million, compared to net sales of \$126.2 million for the first quarter ended September 27, 2020. Net income was \$101,000 in the current year first quarter, compared to net income of \$8.0 million in the prior year first quarter. Diluted earnings per share for the first quarter were \$0.03 compared to diluted earnings per share of \$2.11 in the prior year first quarter.

The current year quarter net sales and profitability were significantly impacted by the global semiconductor chip shortage that temporarily closed several of our customer's assembly plants in North America for extended periods of time resulting in significantly reduced sales during the current year quarter.

Additionally, the prior year quarter tax results included a favorable tax adjustment due to changes to the Federal tax law generally referred to as the "Tax Cuts and Jobs Act of 2017", which reduced our income tax provision by \$675,000 and increased our diluted earnings per share by \$0.18 in the prior year quarter in comparison to the current year quarter.

Net sales to each of our customers in the current year quarter and prior year quarter were as follows (in thousands):

		Three Months Ended			
	Sej	otember 26, 2021	Se	ptember 27, 2020	
Stellantis / Fiat Chrysler Automobiles	\$	16,560	\$	25,083	
General Motors Company		25,684		37,756	
Ford Motor Company		17,695		15,846	
Tier 1 Customers		11,975		17,495	
Commercial and Other OEM Customers		17,412		21,435	
Hyundai / Kia		11,015		8,619	
TOTAL	\$	100,341	\$	126,234	

Sales to Stellantis / Fiat Chrysler Automobiles (FCA) and General Motors Company in the current year quarter decreased over the same period in the prior year quarter due primarily to lower vehicle production volumes for which we supply components due to the continuing impact of the global semiconductor chip shortage. Sales to the Ford Motor Company in the current quarter increased primarily due to the increased content on the F-150 pick-up truck for which we supply components. Tier 1 Customers and Commercial and Other OEM Customers were down in the current year quarter compared to the prior year quarter due to lower production vehicle volumes relating to the semiconductor chip shortage referenced above. Sales to Tier 1 Customers, Commercial and Other OEM Customers primarily represent purchasers of vehicle access control products, such as latches, fobs, driver controls and door handles, that we have developed in recent years to complement our historic core business of locks and keys. The increased sales to Hyundai / Kia in the current year quarter were principally due to higher levels of production on their recently launched new Kia Carnival, formerly the Kia Sedona and Hyundai Starex minivans for which we supply components.

Gross Profit margins declined to 12.5% in the current year quarter compared to 17.8% in the prior year quarter primarily due to lower customer vehicle production volumes, higher costs for both raw materials and purchased components, an unfavorable Mexican Peso to US dollar exchange rate affecting the cost of our Mexican operations and the mandatory minimum wage increase enacted by the Mexican Government effective January 1, 2021.

Engineering, Selling and Administrative expenses as a percent of net sales in the current year quarter were 12.1% compared to 9.0% in the prior year quarter. This increase in overall operating expense spending in the current year quarter was primarily due to higher costs for our salaried work force as the prior year quarter had temporary wage reductions that we implemented to address the impact of the COVID-19 pandemic on our operations.

Included in Other (Expense) Income, Net in the current year quarter compared to the prior year quarter were the following items (in thousands of dollars):

	September 26, 2021		S	September 27, 2020	
Equity (Loss) Earnings of VAST LLC Joint Venture	\$	(251)	\$	825	
Net Foreign Currency Transaction Gain (Loss)		180		(123)	

Other	(50)	(137)
	\$ (121)	\$ 565

The equity loss of VAST LLC in the current year quarter related primarily to the global semiconductor chip shortage referred to above that impacted profitability in our VAST China operation as compared to the same period in the prior year quarter. VAST LLC (including VAST China) is a crucial part of our global strategy and we anticipate that it will contribute to our overall long-term market and financial strength.

Frank Krejci, President and CEO commented: "This has been a very challenging quarter. For example, industry vehicle build rates in September 2021 were 34% below those in April 2021 due to supply chain issues, forcing many temporary assembly plant closures by our customers during the current quarter.

"There has been some recent improvement in supply chain issues, a trend that will hopefully continue. Longer term, reasons for optimism remain because of continued consumer demand, extremely thin industry inventory levels and recent reductions of assembly plant closures.

"We were still able to remain profitable through operational adjustments and cost containment efforts. This was in the face of efficiency disruptions from unexpected customer shipping curtailments, a 20% decline in sales versus last year, added logistics costs, price increases from suppliers and losses in our China operations. Much credit is due to the efforts of our Associates. With a strong balance sheet and lower production pressures, we kept a long-term perspective and maintained a view of this situation as an opportunity to continue to invest in our future products and operational efficiencies."

STRATTEC designs, develops, manufactures and markets automotive Access Control Products, including mechanical locks and keys, electronically enhanced locks and keys, steering column and instrument panel ignition lock housings, latches, power sliding side door systems, power lift gate systems, power deck lid systems, door handles and related products. These products are provided to customers in North America, and on a global basis through a unique strategic relationship with WITTE Automotive of Velbert, Germany and ADAC Automotive of Grand Rapids, Michigan. Under this relationship, STRATTEC, WITTE and ADAC market each company's products to global customers under the "VAST Automotive Group" brand name. STRATTEC's history in the automotive business spans over 110 years.
