#### PROSPECTIVE INFORMATION

A number of the matters and subject areas discussed in this Form 10-Q contain "forward-looking statements" within the meaning of the Private Securities Litigation Reform Act of 1995. These statements may be identified by the use of forward-looking words or phrases such as "anticipate," "believe," "could," "expect," "intend," "may," "planned," "potential," "should," "will," and "would," or the negative of these terms or words of similar meaning. These statements include expected future financial results, product offerings, global expansion, liquidity needs, financing ability, planned capital expenditures, management's or the Company's expectations and beliefs, and similar matters discussed in this Form 10-Q. The discussion of such matters and subject areas contained herein is qualified by the inherent risks and uncertainties surrounding future expectations generally, and also may materially differ from the Company's actual future experience.

The Company's business, operations and financial performance are subject to certain risks and uncertainties, which could result in material differences in actual results from the Company's current expectations. These risks and uncertainties include, but are not limited to, general economic conditions, in particular relating to the automotive industry, consumer demand for the Company's and its customers' products, competitive and technological developments, customer purchasing actions, changes in warranty provisions and customers' product recall policies, work stoppages at the Company or at the location of its key customers as a result of labor disputes, foreign currency fluctuations, uncertainties stemming from U.S. trade policies, tariffs and reactions to same from foreign countries, delays and restrictions impacting the import of goods and components stemming from heightened security procedures implemented by the U.S. Government related to U.S.-Mexico border crossings, the volume and scope of product returns or customer cost reimbursement actions, changes in the costs of operations, warranty claims, adverse business and operational issues resulting from the global supply chain and logistics disruption, the ongoing and lingering effects of the semiconductor chip supply shortages and the Coronavirus (COVID-19) pandemic, matters adversely impacting the timing, availability and cost of material component parts and raw materials for the production of our products and the products of our customers, or the continuation or worsening thereof, matters related to pricing actions implemented by the Company and customer responses and concessions related to same, and other matters described in the section titled "Risk Factors" in the Company's Form 10-K report filed on September 7, 2023 with the Securities and Exchange Commission for the year ended July 2, 2023.

Shareholders, potential investors and other readers are urged to consider these factors carefully in evaluating the forward-looking statements and are cautioned not to place undue reliance on such forward-looking statements. The forward-looking statements made herein are only made as of the date of this Form 10-Q and the Company undertakes no obligation to publicly update such forward-looking statements to reflect subsequent events or circumstances occurring after the date of this Form 10-Q.

The accompanying notes are an integral part of these Condensed Consolidated Statements of Cash Flows.

# STRATTEC SECURITY CORPORATION AND SUBSIDIARIES Notes to Condensed Consolidated Financial Statements (Unaudited)

#### **Basis of Financial Statements**

STRATTEC SECURITY CORPORATION designs, develops, manufactures and markets automotive access control products including mechanical locks and keys, electronically enhanced locks and keys, fobs, passive entry passive start systems (PEPS), steering column and instrument panel ignition lock housings, latches, power sliding door systems, power tailgate systems, power lift gate systems, power deck lid systems, door handles and related products for primarily North American automotive customers. We also supply global automotive manufacturers through a unique strategic relationship with WITTE Automotive ("WITTE") of Velbert, Germany, and ADAC Automotive ("ADAC") of Grand Rapids, Michigan, which has been restructured effective as June 30, 2023 as described elsewhere herein. Under this relationship, STRATTEC, WITTE and ADAC market the products of each company to global customers as cooperating partners of the "VAST Automotive Group" brand name (as more fully described herein). STRATTEC products are shipped to customer locations in the United States, Canada, Mexico, Europe, South America, Korea, China and India, and we, along with WITTE and ADAC, provide full service and aftermarket support for each VAST Automotive Group partner's products. As noted below, effective as of June 30, 2023, we sold our one-third ownership interest in Vehicle Access Systems Technologies LLC ("VAST LLC") to WITTE and entered into a cooperation framework agreement with WITTE related to VAST LLC which provides an ongoing framework for the parties to collaborate on global programs related to product development and manufacturing.

The accompanying condensed consolidated financial statements reflect the consolidated results of STRATTEC SECURITY CORPORATION, its wholly owned subsidiaries STRATTEC de Mexico and STRATTEC POWER ACCESS LLC ("SPA"), and its majority owned subsidiary, ADAC-STRATTEC, LLC. Effective June 30, 2023, SPA became a wholly owned subsidiary of STRATTEC as a result of the purchase of its remaining non-controlling interest. Prior to June 30, 2023, STRATTEC owned 80 percent of SPA. STRATTEC is headquartered in Milwaukee, Wisconsin. STRATTEC de Mexico is located in Juarez, Mexico. ADAC-STRATTEC, LLC and SPA have operations in El Paso, Texas and Juarez and Leon, Mexico. Effective June 30, 2023, we sold our equity investment in VAST LLC to WITTE. Prior to the sale, our equity investment in VAST LLC, for which we exercised significant influence but did not control and was not variable interest entity of STRATTEC, was accounted for using the equity method. VAST LLC consisted primarily of four wholly owned subsidiaries in China, one wholly owned subsidiary in Brazil and one joint venture entity in India. The results of the VAST LLC foreign subsidiaries and joint venture were reported on a one-month lag basis. We have one reporting segment.

In the opinion of management, the accompanying condensed consolidated balance sheets as of October 1, 2023 and July 2, 2023, which have been derived from our audited financial statements, and the related unaudited interim condensed consolidated financial statements included herein contain all adjustments, consisting only of normal recurring items, necessary for their fair presentation in conformity with accounting principles generally accepted in the United States of America ("U.S. GAAP") and in accordance with Rule 10-01 of Regulation S-X. All significant intercompany transactions have been eliminated.

Interim financial results are not necessarily indicative of operating results for an entire year. The information included in this Form 10-Q should be read in conjunction with the financial statements and notes thereto included in the STRATTEC SECURITY CORPORATION 2023 Form 10-K, which was filed with the Securities and Exchange Commission on September 7, 2023.

During December 2022, management determined that a previously unrecorded liability for postretirement death benefits was required to be recognized in accordance with ASC 715. Eligible participants for this death benefit include all salaried retirees who retired prior to October 1, 2001 and all hourly retirees who were hired prior to June 27, 2005 and retired prior to January 1, 2010. As such, prior period amounts have been corrected to include the actuarially calculated liability and the unrecognized actuarial losses impacting Accumulated Other Comprehensive Loss in the Condensed Consolidated Balance Sheets. Additionally, prior period amounts have been corrected to include interest cost and amortization of actuarial losses in the Condensed Consolidated Statements of Income and Comprehensive Income (Loss).

Additionally, management identified a correction to previously reported Equity Earnings of Joint Ventures in the Condensed Consolidated Statements of Income and Comprehensive Income (Loss), which correction also impacts the previously reported Investment in Joint Ventures amount reported in the Condensed Consolidated Balance Sheets. While prior period amounts have been corrected for comparability, the corrections, both individually and in total, were not material to the previously reported condensed consolidated financial statements.

The impact of the prior period corrections on the components of Stockholders' Equity and the related components of Accumulate Other Comprehensive Loss is as follows (thousands of dollars):

	July 3, 2022					Octobe	r 2, 2022				
		reviously Reported	Adjus	stment	As R	eported		reviously Reported	Adju	stment A	As Reported
Retained earnings		241,504		(535)	2	240,969	\$	241,632	\$	(538)\$	241,094
Accumulated other comprehensive loss		(18,657)		69		(18,588)		(19,320)	)	64	(19,256)
Total STRATTEC SECURITY CORPORATION shareholders' equity		188,866		(466)		188,400	ď	189,068	\$	(474) (474) §	188,594
Total shareholders' equity		220,413		(466)	4	219,947	\$	219,883	Ψ	(4/4)\$	219,409
Accumulated Other Comprehensive Loss: Foreign currency translation adjustments Retirement and Postretirement Benefit	\$	(16,723)	\$	(10) \$	\$	(16,733)	\$	(17,461)	)\$	(10)\$	(17,471)
Plans		(1,934)		79		(1,855)		(1,859)	)	74	(1,785)
Accumulated other comprehensive loss	\$	(18,657)	\$	69	\$	(18,588)	\$	(19,320)	\$	64 \$	(19,256)

The impact of the prior period corrections on the Condensed Consolidated Statements of Income and Comprehensive Income (Loss) is as follows (thousands of dollars):

	Three Months Ended October 2, 2022					
	Previously Reported		Adjustment	As Reported		
Other expense, net	\$	(290)\$	(3)\$	(293)		
Loss before benefit for income taxes and non-			<u> </u>			
controlling interest		(96)	(3)	(99)		
Benefit for income taxes		(36)	<u>-</u>	(36)		
Net loss		(60)	(3)	(63)		
Net income attributed to STRATTEC SECURITY						
CORPORATION	\$	128 \$	(3)\$	125		
Comprehensive Income:

Pension and postretirement plans, net of tax		75	(5)	70		
Other comprehensive loss, net of tax		(607)	(5)	(612)		
Comprehensive loss		(667)	(8)	(675)		
Comprehensive loss attributed to STRATTEC						
SECURITY CORPORATION	\$	(535) <u>\$</u>	(8)\$	(543)		

The correction of prior period amounts had no impact on total operating, investing, and financing activities in the Condensed Consolidated Statements of Cash Flows during the three-month period ended October 2, 2022. In conjunction with the correction of the prior period amounts, the following footnotes, which were impacted by the above adjustments, were also corrected: Shareholders' Equity, Other Income (Expense), net, Earnings Per Share, Pension and Postretirement Benefits, and Accumulated Other Comprehensive Loss.

#### **Risks and Uncertainties**

STRATTEC's operating performance is subject to global economic conditions, inflationary pressures and levels of consumer spending specifically within the automotive industry. Inflationary pressures resulted in increased raw material and purchased part costs as well as increased wage rates in Mexico beginning in calendar 2021 and continuing through and into fiscal 2024. Such increases negatively impacted our 2022, 2023 and first quarter of fiscal 2024 operating results.

Inflationary pressures in the U.S. and global economy continue to adversely impact our operating results and may continue to impact the supply chain and our operations, including impacting our customers, workforce and suppliers, any of which may continue to disrupt and limit sourcing of semiconductor chips, transponders and other critical supply chain components needed by us and our customers to meet expected production schedules. Moreover, these events may continue to create added inflationary pressures on our operations, including further increases in wages and the prices of raw materials and purchased parts. All of these foregoing matters, including their scope and duration, are uncertain and cannot be predicted as to timing and cost impacts upon our operations. These

changing conditions may also affect the estimates and assumptions made by our management in our financial statements. Such estimates and assumptions affect, among other things, our long-lived asset valuations, assessment of our annual effective tax rate, valuation of deferred income taxes, assessment of excess and obsolete inventory reserves, and assessment of collectability of trade receivables.

#### **New Accounting Standard**

In June 2016, the FASB issued ASU 2016-13, *Financial Instruments - Credit Losses*. The update revises the methodology for measuring credit losses on financial instruments and the timing of when such losses are recorded. Originally, the update was effective for fiscal years, and for interim periods within those fiscal years, beginning after December 15, 2019, with early adoption permitted. In November 2019, FASB issued ASU 2019-10, *Financial Instruments - Credit Losses*, *Derivatives and Hedging*, *and Leases*. This ASU defers the effective date of ASU 2016-13 for public companies that are considered smaller reporting companies as defined by the SEC to fiscal years beginning after December 15, 2022, including interim periods within those fiscal years. We adopted this standard in the first quarter of our fiscal 2024. The adoption of this pronouncement did not have a material impact on our consolidated financial statements.

#### **Subsequent Event**

In October 2023, we entered into a peso forward contract providing for monthly settlements during the period January 2024 through June 2024. The notional amount over the contract period totals \$12 million with a forward exchange rate of 18.366. Refer to the Derivative Instruments discussion below.

#### Value-Added Tax

Our Mexican entities are subject to value-added tax ("VAT"). VAT is paid on goods and services and collected on sales. A VAT certification generally allows for relief from VAT tax for temporarily imported goods. Our VAT recoverable and payable balances were increased as of July 2, 2023 due to several monthly tax periods being open to audit by the Mexican tax authority. As of October 1, 2023, the audits remain open. Additionally, VAT recoverable balances increased \$7.1 million during the quarter ended October 1, 2023 mostly due a temporary issue with our VAT tax certification. We are working with the Mexican tax authority to resolve the issue. Until the issue is resolved, we will be required to pay VAT on all parts temporarily imported into Mexico before seeking reimbursement. The normal timing for recovery of the tax paid resulted in a temporary increase in the recoverable balance.

#### **Derivative Instruments**

We own and operate manufacturing operations in Mexico. As a result, a portion of our manufacturing costs are incurred in Mexican pesos, which causes our earnings and cash flows to fluctuate due to changes in the U.S. dollar/Mexican peso exchange rate. During 2023, we had contracts with Bank of Montreal that provide for monthly Mexican peso currency forward contracts for a portion of our estimated peso denominated operating costs. Our objective in entering into currency forward contracts is to minimize our earnings volatility resulting from changes in exchange rates affecting the U.S. dollar cost of our Mexican operations. The Mexican peso forward contracts are not used for speculative purposes and are not designated as hedges. As a result, all currency forward contracts are recognized in our accompanying condensed consolidated financial statements at fair value and changes in the fair value are reported in current earnings as part of Other Income (Expense), net. No Mexican peso forward contracts were outstanding as of October 1, 2023 or July 2, 2023.

The pre-tax effects of the Mexican peso forward contracts are included in Other Income (Expense), net on the accompanying Condensed Consolidated Statements of Income and Comprehensive Income (Loss) and consisted of the following for the periods indicated below (thousands of dollars):

Octo			
	ber 1, )23		October 2, 2022
\$	_	\$	238
\$	_	\$	(35)
		2023	2023

#### **Fair Value of Financial Instruments**

The fair value of our cash and cash equivalents, accounts receivable, accounts payable and borrowings under our credit facilities approximated book value as of October 1, 2023 and July 2, 2023. Fair value is defined as the exchange price that would be received for an asset or paid for a liability (an exit price) in the principal or most advantageous market in an orderly transaction between market participants on the measurement date.

The following table summarizes our financial assets and liabilities measured at fair value on a recurring basis as of October 1, 2023 (in thousands):

	Fair Value Inputs					
	Level 1 Assets: Quoted Prices In Active Markets		Obse Inputs Than	: Assets: rvable s Other Market ices	Level 3 Assets: Unobservable Inputs	
Assets:						
Rabbi Trust Assets:						
Stock Index Funds:						
Small Cap	\$	121	\$	_	\$	_
Mid Cap		245		_		_
Large Cap		376		_		_
International		364		_		_
Fixed Income Funds		797		_		
Cash and Cash Equivalents		_		673		_
Total Assets at Fair Value	\$	1,903	\$	673	\$	

The Rabbi Trust assets fund our Amended and Restated Supplemental Executive Retirement Plan and are included in Other Long-Term Assets in the accompanying Condensed Consolidated Balance Sheets.

#### **Investment in Joint Ventures and Majority Owned Subsidiaries**

Prior to June 30, 2023, we participated in certain Alliance Agreements with WITTE Automotive ("WITTE") and ADAC Automotive ("ADAC"). WITTE, of Velbert, Germany, is a privately held automotive supplier. WITTE designs, manufactures and markets automotive components, including hood latches, rear compartment latches, seat back latches, door handles and specialty fasteners. WITTE's primary market for these products has been Europe. ADAC, of Grand Rapids, Michigan, is a privately held automotive supplier and manufactures engineered products, including door handles and other automotive trim parts, utilizing plastic injection molding, automated painting and various assembly processes.

The Alliance Agreements included a set of cross-licensing agreements for the manufacture, distribution and sale of WITTE products by STRATTEC and ADAC in North America, and the manufacture, distribution and sale of STRATTEC and ADAC products by WITTE in Europe. Additionally, a joint venture company, Vehicle Access Systems Technology LLC ("VAST LLC"), in which WITTE, STRATTEC and ADAC each held a one-third equity interest, existed to seek opportunities to manufacture and sell each company's products in areas of the world outside of North America and Europe. As a result of these relationships, the entities involved purchased component products from each other for use in end products assembled and sold in their respective home markets. STRATTEC purchased such component parts from WITTE. These purchases totaled \$135,000 during the three-month period ended October 2, 2022. WITTE was no longer a related party as of July 2, 2023 as a result of the Equity Restructuring Agreement discussed below.

VAST LLC had investments in Sistema de Acesso Veicular Ltda, VAST China (Taicang), VAST Jingzhou Co. Ltd., VAST Shanghai Co., VAST Fuzhou and Minda-VAST Access Systems. The operations under VAST Fuzhou closed during our fiscal 2021. Sistema de Acesso Veicular Ltda was located in Brazil and serviced customers in South America. VAST LLC disposed of Sistema de Acesso Veicular Ltda in June 2023. VAST China (Taicang), VAST Jingzhou Co. Ltd, and VAST Shanghai Co. (collectively known as VAST China), provided a base of operations to service each VAST partner's automotive customers in the Asian market. Minda-VAST Access Systems is based in Pune, India and is a 50:50 joint venture between VAST LLC and Minda Management Services Limited, an affiliate of both Minda Corporation Limited and Spark Minda, Ashok Minda Group of New Delhi, India (collectively "Minda"). Minda and its affiliates cater to the needs of all major car, motorcycle, commercial vehicle, tractor and off-road vehicle manufacturers in India. VAST LLC also maintained branch offices in South Korea and Japan in support of customer sales and engineering requirements.

Effective June 30, 2023, we entered into and completed transactions contemplated by an Equity Restructuring Agreement ("Restructuring Agreement") between STRATTEC and WITTE. Pursuant to the terms of the Restructuring Agreement, STRATTEC sold its one-third interest in VAST LLC to WITTE and STRATTEC purchased WITTE's 20 percent non-controlling interest in STRATTEC POWER ACCESS LLC ("SPA") along with the net assets of VAST LLC's Korea branch office. As of June 30, 2023, the Korean branch office is wholly owned by STRATTEC and its subsequent financial results are consolidated with the financial results of STRATTEC. The Restructuring Agreement will position STRATTEC to redeploy assets, both financial and technical, to create greater focus on STRATTEC-specific strategic growth opportunities in North America and around the world. This transaction will allow STRATTEC to be well-positioned to take advantage of new opportunities, including more of our product applications on Electric Vehicles, growing consumer demand for Power Access products, expansion of electronics capabilities and other new automotive products. It will also give us greater resources to further explore diversification of markets, complimentary technology and regions outside of North America. As part of the Restructuring Agreement, STRATTEC also entered into a cooperation framework agreement with WITTE related to VAST LLC which provides a framework for the parties to collaborate on global automotive programs related to product development and manufacturing

Prior to the restructuring agreement, VAST LLC investments were accounted for using the equity method of accounting. Results of the VAST LLC foreign subsidiaries and joint ventures were reported on a one-month lag basis. The activities of the VAST LLC foreign subsidiaries and joint ventures resulted in equity loss of joint ventures of \$265,000 during the three-month period ended October 1, 2023, which loss was the result of additional professional fees incurred during the period related to the Restructuring Agreement. The \$265,000 is an adjustment to the gain on sale of VAST LLC of \$110,000, which was recorded in our fiscal 2023. Our adjusted loss on sale of VAST LLC totals \$155,000. During July 2023, the final \$2.0 million net purchase price due to STRATTEC under the Restructuring Agreement was received. The activities of the VAST LLC foreign subsidiaries and joint ventures resulted in equity earnings of joint ventures to STRATTEC of approximately \$527,000 during the three-month period ended October 2, 2022. No capital contributions were made to VAST LLC by any of the members during the three-month period ended October 2, 2022. As of June 30, 2023, STRATTEC had no continuing involvement in VAST LLC other than under the cooperation framework agreement described above.

STRATTEC POWER ACCESS LLC ("SPA") was formed in fiscal year 2009 to supply the North American portion of the power sliding door, lift gate, tail gate and deck lid system access control products which were acquired from Delphi Corporation. Prior to the Restructuring Agreement, SPA was 80 percent owned by STRATTEC and 20 percent owned by WITTE. As a result of the Restructuring Agreement, STRATTEC purchased the remaining 20 percent interest in SPA, and SPA became a wholly owned subsidiary of STRATTEC. An additional Mexican entity, STRATTEC POWER ACCESS de Mexico, is wholly owned by SPA. The financial results of SPA are consolidated with the financial results of STRATTEC.

ADAC-STRATTEC LLC, a Delaware limited liability company, was formed in fiscal year 2007 to support injection molding and door handle assembly operations in Mexico. ADAC-STRATTEC LLC was 51 percent owned by STRATTEC and 49 percent owned by ADAC for all periods presented in this report. An additional Mexican entity, ADAC-STRATTEC de Mexico, is wholly owned by ADAC-STRATTEC LLC. ADAC-STRATTEC LLC's financial results are consolidated with the financial results of STRATTEC and resulted in increased net sales and net income to STRATTEC of approximately \$32.8 million and \$324,000, respectively, during the three-month period ended October 1, 2023 and increased net sales and reduced net income to STRATTEC of approximately \$30.1 million and \$355,000, respectively, during the three-month period ended October 2, 2022. ADAC charges ADAC STRATTEC LLC an engineering, research and design fee as well as a sales fee. Such fees are calculated as a percentage of net sales, are included in the consolidated results of STRATTEC, and totaled \$2.3 million in the three-month period ended October 1, 2023 and \$2.1 million in the three-month period ended October 2, 2022. Effective January 1, 2023, ADAC and STRATTEC have agreed to suspend the payment of these fees as needed to comply with debt covenant provisions included in the ADAC-STRATTEC LLC credit facility described in greater detail below. Additionally, ADAC-STRATTEC LLC sells production parts to ADAC. Sales to ADAC are included in the consolidated results of STRATTEC and totaled \$2.8 million in the three-month period ended October 1, 2023 and in the three-month period ended October 2, 2022.

#### **Equity (Loss) Earnings of Joint Ventures**

As discussed above within Investment in Joint Ventures and Majority Owned Subsidiaries, effective June 30, 2023, we sold our one-third ownership interest in VAST LLC, for which we exercised significant influence but did not control. VAST LLC was not a variable interest entity of STRATTEC. Until the effective date of the sale, our investment in VAST LLC was accounted for using the equity method. Prior to the effective date of the sale, the results of the VAST LLC foreign subsidiaries and joint venture were reported on a one-month lag basis.

The following are summarized statements of operations for VAST LLC (in thousands):

	Three Months Ended			
		ober 1, 2023	0	ctober 2, 2022
Net Sales	\$	_	\$	66,146
Cost of Goods Sold				55,782
Gross Profit		_		10,364
Engineering, Selling and Administrative Expenses				8,532
Income From Operations		_		1,832
Other Income, net		_		72
Income before Provision for Income Taxes		_		1,904
Provision for Income Taxes				368
Net Income	\$		\$	1,536
STRATTEC's Share of VAST LLC Net Income		_		512
Intercompany Profit Elimination				15
STRATTEC's Equity Earnings of VAST LLC prior to impact of sale of VAST LLC				527
Loss on sale of VAST LLC		(265)		_
STRATTEC's Equity (Loss) Earnings of VAST LLC	\$	(265)	\$	527

We had sales of component parts to VAST LLC, purchases of component parts from VAST LLC, expenses charged to VAST LLC for engineering and accounting services and expenses charged to us from VAST LLC for general headquarters expenses. As a result of the sales of our VAST LLC ownership interest to WITTE, VAST LLC was no longer a related party as of June 30, 2023. The following table summarizes these related party transactions with VAST LLC for the periods indicated below (in thousands):

	Three Months Ended				
	October 1, 2023		October 2, 2022		
Sales to VAST LLC	\$	_	\$	10	
Purchases from VAST LLC	\$	_	\$	14	
Expenses Charged to VAST LLC	\$	_	\$	81	
Expenses Charged from VAST LLC	\$		\$	243	

#### Leases

Our right-of-use operating lease assets are recorded at the present value of future minimum lease payments, net of amortization. We have an operating lease for our El Paso, Texas finished goods and service parts distribution warehouse. This lease has a current lease term through December 2028 and does not include any options to extend the lease term beyond such timeframe. We have two operating leases for office space at our Korean branch office. Both of these leases have a lease term through June 2024 with automatic renewal. For purposes of calculating operating lease obligations, we included an extension of four years after June 2024 as it is reasonably certain that we will exercise such automatic renewals. Our leases do not contain material residual value guarantees or restrictive covenants. Operating lease expense is recognized on a straight-line basis over the lease term.

As the leases do not provide an implicit rate, we used our incremental borrowing rate at lease commencement to determine the present value of our lease payments. The incremental borrowing rate is an entity-specific rate which represents the rate of interest we would pay to borrow over a similar term with similar payments. The operating lease asset and obligation related to our operating leases included in the accompanying Condensed Consolidated Balance Sheets are presented below (in thousands):

	 October 1, 2023
Right-of Use Asset Under Operating Lease:	
Other Long-Term Assets	\$ 4,339
Lease Obligation Under Operating Lease:	_
Current Liabilities: Accrued Liabilities: Other	\$ 606
Other Long-Term Liabilities	3,959
	\$ 4,565

Future minimum lease payments, by our fiscal year, including options to extend that are reasonably certain to be exercised, under these non-cancelable leases are as follows as of October 1, 2023 (in thousands):

2024 (for the remaining nine months)	\$ 634
2025	979
2026	1,026
2027	1,075
2028	1,127
Thereafter	558
Total Future Minimum Lease Payments	 5,399
Less: Imputed Interest	(834)
Total Lease Obligations	\$ 4,565

Cash flow information related to the operating lease is shown below (in thousands):

		Three Months Ended						
	October 1, 2023			ctober 2, 2022				
Operating Cash Flows:								
Cash Paid Related to Operating Lease Obligation	\$	135	\$	122				

The weighted average lease term and discount rate for our operating leases are shown below:

	October 1, 2023
Weighted Average Remaining Lease Term (in years)	5.2
Weighted Average Discount Rate	6.2 %

Operating lease expense for the three-month periods ended October 1, 2023 and October 2, 2022 totaled \$247,000 and \$122,000, respectively.

#### **Credit Facilities**

STRATTEC has a \$40 million secured revolving credit facility (the "STRATTEC Credit Facility") with BMO Harris Bank N.A. ADAC-STRATTEC LLC has a \$25 million secured revolving credit facility (the "ADAC-STRATTEC Credit Facility") with BMO Harris Bank N.A., which is guaranteed by STRATTEC. The STRATTEC Credit Facility expires August 1, 2026. The ADAC-STRATTEC Credit Facility expires August 1, 2024. Borrowings under either credit facility are secured by our U.S. cash balances, accounts receivable, inventory, and fixed assets. Interest on borrowings under the STRATTEC Credit Facility were at varying rates based, at our option, on the bank's prime rate or LIBOR plus 1.25 percent through February 22, 2023, SOFR plus 1.35 percent for the period February 23, 2023 through September 5, 2023, and SOFR plus 1.85 subsequent to September 5, 2023. Interest on borrowings under the ADAC-STRATTEC Credit Facility were at varying rates based, at our option, on the bank's prime rate or LIBOR plus 1.25 through February 6, 2023 and SOFR plus 1.35 subsequent to February 6, 2023. Both credit facilities contain a restrictive financial covenant that requires the applicable borrower to maintain a minimum net worth level. The ADAC-STRATTEC Credit Facility includes an additional restrictive financial covenant that requires the maintenance of a minimum fixed charge coverage ratio. As of October 1, 2023, we were in compliance with all financial covenants required by these credit facilities.

Outstanding borrowings under the credit facilities were as follows (in thousands):

	2023		2023			
STRATTEC Credit Facility	\$	<u> </u>	_			
ADAC-STRATTEC Credit Facility	13,	000	13,000			
	\$ 13,	000 \$	13,000			

October 1

Tuly 2

Average outstanding borrowings and the weighted average interest rate under each credit facility referenced above were as follows for each period presented (in thousands):

		s Ended			
	Average Outstan	ding Bor	rowings	Weighted Avera	ge Interest Rate
	 October 1, 2023	(	October 2, 2022	October 1, 2023	October 2, 2022
STRATTEC Credit Facility	\$ 132	\$	3,000	8.5 %	3.8 %
ADAC-STRATTEC Credit Facility	\$ 13,000	\$	11,352	6.6%	3.5%

#### **Commitments and Contingencies**

We are from time to time subject to various legal actions and claims incidental to our business, including those arising out of alleged defects, alleged breaches of contracts, product warranties, intellectual property matters and employment related matters. It is our opinion that the outcome of such matters will not have a material adverse impact on our consolidated financial position, results of operations or cash flows. With respect to warranty matters, although we cannot ensure that future costs of warranty claims by customers will not be material, we believe our established reserves are adequate to cover potential warranty settlements.

In 1995, we recorded a provision for estimated costs to remediate an environmental contamination site at our Milwaukee facility. The facility was contaminated by a solvent spill, which occurred in 1985, from a former above ground solvent storage tank located on the east side of the facility. The reserve was originally established based on third party estimates to adequately cover the cost for active remediation of the contamination. Due to changing technology and related costs associated with active remediation of the contamination, in fiscal years 2010, 2016, and 2021, we obtained updated third party estimates of projected costs to adequately cover the cost for active remediation of this contamination and adjusted the reserve as needed. We monitor and evaluate the site with the use of groundwater monitoring wells. An environmental consultant samples these wells one or two times a year to determine the status of the contamination and the potential for remediation of the contamination by natural attenuation, the dissipation of the contamination over time to concentrations below applicable standards. If such sampling evidences a sufficient degree of and trend toward natural attenuation of the contamination at the site, we may be able to obtain a closure letter from the regulatory authorities resolving the issue without the need for active remediation. If a sufficient degree and trend toward natural attenuation is not evidenced by sampling, a more active form of remediation beyond natural attenuation may be required. The sampling has not yet satisfied all of the requirements for closure by natural attenuation. As a result, sampling continues and the reserve remains at an amount to reflect our estimated cost of active remediation. The reserve is not measured on a discounted basis. We believe, based on findings-to-date and known environmental regulations, that the environmental reserve of \$1.4 million at October 1, 2023 is adequate.

#### Shareholders' Equity

A summary of activity impacting shareholders' equity for the three-month periods ended October 1, 2023 and October 2, 2022 were as follows (in thousands):

		Three months ended October 1, 2023

#### **Revenue from Contracts with Customers**

We generate revenue from the production of parts sold to automotive and light-truck Original Equipment Manufacturers ("OEMs"), or Tier 1 suppliers at the direction of the OEM, under long-term supply agreements supporting new vehicle production. Such agreements also require related production of service parts subsequent to the initial vehicle production periods. Additionally, we generate revenue from the production of parts sold in aftermarket service channels and to non-automotive commercial customers.

#### **Contract Balances:**

We have no material contract assets or contract liabilities as of October 1, 2023 or July 2, 2023.

#### Revenue by Product Group and Customer:

Revenue by product group for the periods presented was as follows (thousands of dollars):

	Three Months Ended							
		October 2, 2022						
Door Handles & Exterior Trim	\$	32,768	\$	30,125				
Power Access		32,651		24,841				
Keys & Locksets		30,295		28,665				
Latches		15,552		14,762				
Aftermarket & OE Service		10,905		10,648				
User Interface Controls		10,597		9,118				
Other		2,638		2,201				
	\$	135,406	\$	120,360				

Revenue by customer or customer group for the periods presented was as follows (thousands of dollars):

	Three Months Ended

Hyundai / Kia		8,376		8,304				
	\$	135,406	\$	120,360				

#### Other Income (Expense), net

Net other income (expense) included in the accompanying Condensed Consolidated Statements of Income and Comprehensive Income (Loss) primarily included foreign currency transaction gains and losses, realized and unrealized gains and losses on our Mexican peso currency forward contracts, the components of net periodic benefit cost other than the service cost component related to our pension and postretirement plans and Rabbi Trust gains and losses. Foreign currency transaction gains and losses resulted from activity associated with foreign denominated assets and liabilities held by our Mexican subsidiaries. The Rabbi Trust assets fund our amended and restated supplemental executive retirement plan. The investments held in the Trust are considered trading securities. We entered into the Mexican peso currency forward contracts during fiscal 2023 to reduce earnings volatility resulting from changes in exchange rates affecting the U.S. dollar cost of our Mexican operations. Pension and postretirement plan costs include the components of net periodic benefit cost other than the service cost component. The investments held in this Trust are considered trading securities.

The impact of these items for each of the periods presented was as follows (in thousands):

	Three Months Ended						
		ober 1, 2023		October 2, 2022			
Foreign Currency Transaction Gain (Loss)	\$	226	\$	(71)			
Unrealized Loss on Peso Forward							
Contracts		_		(35)			
Realized Gain on Peso Forward							
Contracts, net				238			
Pension and Postretirement Plans Cost		(99)		(129)			
Rabbi Trust Loss		(42)		(366)			
Other		49		70			
	\$	134	\$	(293)			

#### Warranty

We have a warranty reserve recorded related to our known and potential exposure to warranty claims in the event our products fail to perform as expected, and in the event we may be required to participate in the repair costs incurred by our customers for such products. The recorded warranty reserve balance involves judgment and estimates. Our reserve estimate is based on an analysis of historical warranty data as well as current trends and information. As additional information becomes available, actual results may differ from recorded estimates, which may require us to adjust the amount of our warranty provision.

#### **Income Taxes**

Our effective tax rate was 23.7 percent and 36.4 percent for the three-month periods ended October 1, 2023 and October 2, 2022, respectively. The prior year period effective tax rate included a discrete tax expense related to stock-based compensation that increased the effective tax rate by 22.2 percentage points. The change in our effective rate between quarterly periods is primarily due to the sale of our interest in VAST LLC and the purchase of the remaining non-controlling interest in SPA, which were effective June 30, 2023. Our prior year period effective tax rate differs from the statutory tax rate due to the application of the Global Intangible Low Taxed Income (GILTI) tax provisions, our available R&D tax credit and the non-controlling interest portion of our pre-tax income. The non-controlling interest portion impacts the effective tax rate as ADAC-STRATTEC LLC is taxed as a partnership for U.S. tax purposes. SPA was taxed as a partnership in our fiscal 2023.

#### **Earnings Per Share**

Basic earnings per share is computed on the basis of the weighted average number of shares of common stock outstanding during the applicable period. Diluted earnings per share is computed on the basis of the weighted average number of shares of common stock plus the potential dilutive common shares outstanding during the applicable period using the treasury stock method. Potential dilutive common shares include outstanding stock options and unvested restricted stock awards.

A reconciliation of the components of the basic and diluted per-share computations follows (in thousands, except per share amounts):

	Three Months Ended												
			October 1, 2023										
	Net	Net Income Shares Per-Share Amount			Net	Income	Shares	Per-Share Amount					
Basic Earnings Per Share Stock Option and Restricted	\$	4,165	3,948	\$	1.05	\$	125	3,899	\$	0.03			
Stock Awards		_	26				_	30					
Diluted Earnings Per Share	\$	4,165	3,974	\$	1.05	\$	125	3,929	\$	0.03			

The calculation of earnings per share excluded 51,970 share-based payment awards as of October 1, 2023 and 36,921 share-based payment awards as of October 2, 2022 because their inclusion would have been anti-dilutive.

#### **Stock-based Compensation**

We maintain an omnibus stock incentive plan. This plan provides for the granting of stock options, shares of restricted stock and stock appreciation rights. As of October 1, 2023, the Board of Directors had designated 2 million shares of common stock available for the grant of awards under the plan. Remaining shares available to be granted under the plan as of October 1, 2023 were 108,235. Awards that expire or are canceled without delivery of shares become available for re-issuance under the plan. We issue new shares of common stock to satisfy stock option exercises. We included a proposal at our Annual Meeting of Shareholders held on October 10, 2023 to increase the number of available shares to be granted under this omnibus stock incentive plan by an additional 250,000 shares, which proposal was approved by our shareholders at the Annual Meeting.

Nonqualified and incentive stock options and shares of restricted stock have been granted to our officers, outside directors and specified associates under our stock incentive plan. Stock options granted under the plan may not be issued with an exercise price less than the fair market value of the common stock on the date the option is granted. Stock options become exercisable as determined at the date of grant by the Compensation Committee of the Board of Directors. The options expire 10 years after the grant date unless an earlier expiration date is set at the time of grant. The options vest 1 to 4 years after the date of grant as determined by the Compensation Committee of the Board of Directors. Shares of restricted stock granted under the plan are subject to vesting criteria determined by the Compensation Committee of the Board of Directors at the time the shares are granted and have a minimum vesting period of one year from the date of grant. Unvested restricted shares granted have voting rights, regardless of whether the shares are vested or unvested, but only have the right to receive cash dividends after such shares become vested. Restricted stock grants vest 1 to 3 years after the date of grant as determined by the Compensation Committee of the Board of Directors.

The fair value of each stock option grant was estimated as of the date of grant using the Black-Scholes pricing model. The fair value of each restricted stock grant was based on the market price of the underlying common stock as of the date of grant. The resulting compensation cost for fixed awards with graded vesting schedules is amortized on a straight-line basis over the vesting period for the entire award.

A summary of stock option activity under our stock incentive plan for the three-month period ended October 1, 2023 follows:

	Shares	Weighted Average Exercise Price		Average Contractual		
Balance, July 2, 2023	32,561	\$	48.88			
Expired	(24,491)	\$	38.71			
Balance, October 1, 2023	8,070	\$	79.73	0.9	_	
Exercisable, October 1, 2023	8,070	\$	79.73	0.9	_	

No options were granted, vested, or exercised during the three-month periods ended October 1, 2023 or October 2, 2022.

A summary of restricted stock activity under our stock incentive plan for the three-month period ended October 1, 2023 follows:

	Shares		
Nonvested Balance, July 2, 2023	87,900	\$	32.09
Granted	51,675	\$	22.16
Vested	(40,025)	\$	31.95
Forfeited	(650)	\$	36.70
Nonvested Balance, October 1, 2023	98,900	\$	27.15

As of October 1, 2023, all compensation cost related to outstanding stock options granted under our omnibus stock incentive plan has been recognized. As of October 1, 2023, there was approximately \$1.9 million of total unrecognized compensation cost related to unvested restricted stock grants outstanding under the plan. This cost is expected to be recognized over a remaining weighted average period of 1.1 years. Total unrecognized compensation cost will be adjusted for any future changes in estimated and actual forfeitures of awards granted under our omnibus stock incentive plan.

#### **Pension and Postretirement Benefits**

We have a noncontributory Supplemental Executive Retirement Plan ("SERP"), which is a nonqualified defined benefit plan. The SERP is funded through a Rabbi Trust with TMI Trust Company. Under the SERP, as amended December 31, 2013, participants received an accrued lump-sum benefit as of December 31, 2013, which was credited to each participant's account. Subsequent to December 31, 2013, each eligible participant receives a supplemental retirement benefit equal to the foregoing lump sum benefit, plus an annual benefit accrual equal to 8 percent of the participant's base salary and cash bonus, plus annual credited interest on the participant's account balance. All then current participants as of December 31, 2013 are fully vested in their account balances with any new individuals participating in the SERP effective on or after January 1, 2014 being subject to a five year vesting period. The SERP, which is considered a nonqualified defined benefit plan under applicable rules and regulations of the Internal Revenue Code, will continue to be funded through use of a Rabbi Trust to hold investment assets to be used in part to fund any future required lump sum benefit payments to participants. The Rabbi Trust assets had a value of \$2.6 million at both October 1, 2023 and July 2, 2023. The Rabbi Trust asset balance was included in Other Long-Term Assets in the accompanying Condensed Consolidated Balance Sheets.

We also sponsor a postretirement health care plan for all current and future eligible U.S. retirees hired prior to June 1, 2001. The expected cost of retiree health care benefits is recognized during the years the associates who are covered under the plan render service. Effective January 1, 2010, an amendment to the postretirement health care plan limited the benefit for future eligible retirees to \$4,000 per plan year and the benefit is further subject to a maximum five-year coverage period based on the associate's retirement date and age. The postretirement health care plan is unfunded. Additionally, we sponsor a postretirement life plan for all U.S. salaried retirees who retired prior to October 1, 2001 and all U.S. hourly retirees who were hired prior to June 27, 2005 and retired prior to January 1, 2010. The benefit provides for a death benefit of \$8,000, which is increased to \$70,000 for disability retirees until reaching the age of 65, in which case the death benefit thereafter decreases back to \$8,000. The postretirement life plan is unfunded. See "Basis of Financial Statements" above for additional information regarding certain matters related to recording a liability adjustment for the death benefit owed to eligible participants under the postretirement life plan.

The service cost component of the net periodic benefit costs under these plans is allocated between Cost of Goods Sold and Engineering, Selling and Administrative Expenses while the remaining components of the net periodic benefit costs are included in Other Income (Expense), net in the accompanying Condensed Consolidated Statements of Income and Comprehensive Income (Loss).

The following tables summarize the net periodic benefit cost recognized for each of the periods indicated under these plans (in thousands):

		SERP Benefits Three Months Ended				Postretirement Benefits

#### STRATTEC SECURITY CORPORATION AND SUBSIDIARIES MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The following Management's Discussion and Analysis should be read in conjunction with STRATTEC SECURITY CORPORATION's accompanying Condensed Consolidated Financial Statements and Notes thereto and its 2023 Form 10-K, which was filed with the Securities and Exchange Commission on September 7, 2023. Also, refer to discussion of prior period corrections under Basis of Financial Statements included in the Notes to Condensed Consolidated Financial Statements in this Form 10-Q. Unless otherwise indicated, all references to quarters and years refer to fiscal quarters and fiscal years.

#### Outlook

Although the net sales impact associated with the United Auto Workers (UAW) strike initially launched against General Motors, Ford Motor Company and Stellantis on September 14th was negligible for STRATTEC in the fiscal 2024 first quarter, the strike's scope escalated in October to include the manufacturing of high-volume pickup trucks and SUVs for the three companies before tentative agreements were reached and manufacturing resumed by the beginning of November. We anticipate working with our customers to recover the majority of the strike related production shortfall by the end of our fiscal third quarter and that the overall full fiscal year sales impact of the strike will likely be negligible to STRATTEC.

Concluding protracted price-concession negotiations with our major customers was the most significant profit improvement action we targeted for fiscal 2024 as highlighted in the most recent Form 10-K Outlook filed with the U.S. Securities and Exchange Commission on September 7, 2023. Within our fiscal 2024 first quarter we were able to reach agreement with our key customers on the majority of these outstanding negotiations, including for both one-time retroactive price adjustments for sales prior to fiscal year 2024 as well as present program price increases that will carry forward to subsequent years. In the fiscal 2024 first quarter, one-time retroactive price adjustments totaled \$8.0 million of which \$900,000 was paid to key suppliers of components in the form of higher negotiated material costs to us. We do not anticipate any further material one-time retroactive pricing adjustments for the remainder of the fiscal year. The present program price increases in the quarter were \$2.8 million of which \$600,000 was paid to key suppliers of components in the form of higher negotiated material costs to us. For full fiscal year 2024, we continue to target an annualized increase in pricing on present programs, net of higher costs paid to suppliers, between \$10.0 million and \$15.0 million.

From a cost of sales perspective, we anticipate the continuation of the key challenges of a strong Mexican Peso relative to the U.S. Dollar and the risk of another round of Mexican government mandated minimum wage increases in January 2024 affecting the cost of our Mexican operations. In Q1 the U.S. dollar weakened further against the Mexican Peso to an average of 17.14 (compared with 20.19 in the prior year quarter), the U.S. dollar's weakest exchange rate against the Mexican Peso since calendar year 2015. We expect the January 2024 Mexican minimum wage increase to be announced by the Mexican government in early December. To help offset the increased cost of labor and overhead, we implemented a salaried staffing reduction in our Mexican operations in the 2024 first quarter that is projected to reduce costs by an annualized amount of approximately \$800,000. Additionally, the team remains focused on reducing overhead in operations and the purchase of materials by \$3.0 million per year to further offset some of these cost increases.

Regarding the balance sheet, we anticipate balances of reimbursable vendor tooling and Mexican value-added tax (see Note on page 8) will remain increased over historical levels until later in the fiscal year at which time we expect a normalization back to historical levels. Additionally, we plan on renewing our ADAC-STRATTEC credit facility within the fiscal year as the joint venture's profitability improves through higher customer pricing and cost cutting measures.

#### **Analysis of Results of Operations**

Three months ended October 1, 2023 compared to the three months ended October 2, 2022

	Three Months Ended				
	October 1, 2023			October 2, 2022	
Net Sales (in millions)	\$ 5	135.4	\$	120.4	

Net sales to each of our customers or customer groups in the current year quarter and prior year quarter were as follows (in millions):

	Three Months Ended				
	October 1, 2023			tober 2, 2022	
General Motors Company	\$	40.5	\$	38.2	
Stellantis		27.3		17.2	
Ford Motor Company		26.9		24.6	
Tier 1 Customers		18.1		17.3	
Commercial and Other OEM Customers		14.2		14.8	
Hyundai / Kia		8.4		8.3	
	\$	135.4	\$	120.4	

The quarter-over-quarter sales increase of \$15.0 million reflects net price increases from our major OEM customers of \$10.8 million of which \$2.8 million is attributed to ongoing increases in current part prices and \$8.0 million relates to one-time retroactive price increases for parts shipped in the prior fiscal year for which the price increase was agreed to during the current quarter. Quarter-over-quarter sales were not materially impacted by the UAW strike. In addition to the net price increases, the following items specifically impacted sales to the noted customer groups between quarters:

- Sales to Ford Motor Company were positively impacted due to new power end gate content we supply on the F-Series Super Duty Pickup.
- Sales to Stellantis were positively impacted by increased customer vehicle production volumes, specifically related to the Chrysler Pacifica minivan.
- Sales to Tier 1 Customers improved in the current year quarter compared to the prior year quarter due to new door hardware content on the F-Series Super Duty Pickup, which is sold to a Tier 1 customer.
- Sales to Commercial and Other OEM Customers, which are comprised of aftermarket products and vehicle access control products, such as latches, fobs, driver controls and door handles, decreased between quarterly periods due to door handle programs ending with Honda Motor Company.

Three Months Ended						
October 1, 2023			October 2, 2022			
Millions of Dollars				Percent of Net Sales		
\$	74.9	55.3 % \$	71.3	59.2 %		
	41.8	30.9%	36.6	30.4%		
\$	116.7	86.2 % \$	107.9	89.6 %		
	\$	Millions of Dollars  \$ 74.9 41.8	October 1, 2023         Millions of Dollars       Percent of Net Sales         \$ 74.9       55.3 % \$ 41.8         30.9 %	Millions of Dollars         Percent of Net Sales         Millions of Dollars           \$ 74.9         55.3 %         71.3           41.8         30.9 %         36.6		

Prior year quarter reclassifications have been made for consistency with current year quarter presentation.

Total cost of goods sold increased \$8.8 million between quarterly periods. The quarter-over-quarter increase in direct material costs of \$3.6 million was the result of increased sales volume and content, as discussed above, as well as \$1.5 million of negotiated material price increases paid to key suppliers. Price increases paid to suppliers attributed to ongoing operations totaled \$600,000, while the remaining \$900,000 relates to one-time retroactive price increases. The quarter-over-quarter increase in labor and overhead costs of \$5.2 million was impacted by the following:

- The U.S. dollar value of our Mexican operations was negatively impacted by approximately \$3.3 million in the current year quarter as compared to the prior year quarter due to an unfavorable Mexican peso to U.S. dollar exchange rate between periods. The average U.S. dollar / Mexican peso exchange rate decreased to approximately 17.14 pesos to the dollar in the current year quarter from approximately 20.19 pesos to the dollar in the prior year quarter.
- Mexico wages and benefits increased \$1.5 million in the current year quarter as compared to the prior year quarter as a result of a January 1, 2023 20 percent government mandated minimum wage increase. This increase was partially offset by \$380,000 in current year quarter production efficiencies that controlled headcount and hours worked.
- Freight costs increased \$1.0 million between quarterly periods due to an increase in shipments from foreign vendors, a change in shipping terms with a major supplier that occurred in June 2023, and an increase in expedited shipments.
- Royalty costs incurred on sales of certain aftermarket products increased \$319,000 between quarterly periods as a result of increased sales volumes of these products and an increase in applicable royalty rates.
- The current year quarter includes severance costs of \$220,000 related to a realignment of our Mexican workforce.

The unfavorable impact of the specific labor and overhead cost increases noted above was partially offset by more favorable absorption of our fixed overhead costs in the current year quarter as compared to the prior year quarter due to higher production volumes between quarters.

	Three Months Ended				
	ber 1, 023		October 2, 2022		
Gross Profit (in millions)	\$ 18.7	\$	12.5		
Gross Profit as a percentage of net sales	13.8%	, )	10.4%		

Gross profit margin improvement between quarterly periods was driven by pricing relief achieved during the current year quarter as discussed above. The impact of one-time retroactive pricing in the current year quarter increased the gross profit margin percentage by 4.7 percentage points. The current year quarter favorable impacts of ongoing customer price increases, favorable absorption resulting from increased production and production efficiencies in Mexico were more than offset by an unfavorable U.S. dollar to Mexican peso exchange rate combined with a mandatory Mexican minimum wage increase in 2023, higher freight costs and severance costs, all as discussed above.

Engineering, selling and administrative expenses in the current year quarter and prior year quarter were as follows:

		Three Months Ended					
	_	October 1, 2023					
Expenses (in millions)	\$	12.6	\$	12.7			
Expenses as a percentage of net sales		9.3%	)	10.6%			

Engineering, selling and administrative expenses were consistent between periods.

Income from operations was \$6.1 million in the current year quarter compared to loss from operations of \$204,000 in the prior year quarter due to improvement in gross profit margin dollars as discussed above.

Effective June 30, 2023, STRATTEC sold its one-third interest in VAST LLC to WITTE. Refer to the discussion of the Equity Restructuring Agreement within Joint Ventures and Majority Owned Subsidiaries included in the Notes to Financial Statements within this Form 10-Q for additional information regarding the sale of STRATTEC's VAST LLC interest to WITTE Automotive. The equity loss of joint ventures was \$265,000 in the current year quarter compared to equity earnings of joint ventures \$527,000 in the prior year quarter. The current year quarter equity loss of joint ventures was the result of additional professional fees incurred during the period related to the sale of VAST LLC. The \$265,000 is an adjustment to the gain on sale of VAST LLC of \$110,000, which was recorded in our fiscal 2023. Our adjusted loss on sale of VAST LLC totals \$155,000.

Rabbi Trust Loss		(42)		(366)		
Other		49		70		
	\$	134	\$	(293)		

Set forth below is a discussion of the items comprising certain of the components of our Other Income (Expense), net:

- Foreign currency transaction gains and losses resulted from activity associated with foreign denominated assets held by our Mexican subsidiaries.
- The Rabbi Trust assets fund our amended and restated supplemental executive retirement plan. The investments held in the Trust are considered trading securities.
- We entered into the Mexican peso currency forward contracts during fiscal 2023 to reduce earnings volatility resulting from changes in exchange rates affecting the U.S. dollar cost of our Mexican operations.

Pension and postretirement plan costs include the components of net periodic benefit cost other than the service cost component.

Our effective tax rate was 23.7 percent and 36.4 percent for the three-month periods ended October 1, 2023 and October 2, 2022, respectively. The prior year period effective tax rate prior to a favorable discrete benefit related to stock-based compensation was 14.2 percent. The increase in our effective rate from 14.2 percent to 23.7 percent is primarily due to the sale of our interest in VAST LLC and the purchase of the remaining non-controlling interest in SPA, which were effective June 30, 2023. Our prior year period effective tax rate differs from the statutory tax rate due to the application of the Global Intangible Low Taxed Income (GILTI) tax provisions, our available R&D tax credit and the non-controlling interest portion of our pre-tax income. The non-controlling interest portion impacts the effective tax rate as ADAC-STRATTEC LLC is taxed as a partnership for U.S. tax purposes. SPA was taxed as a partnership in our fiscal 2023.

#### **Liquidity and Capital Resources**

#### **Working Capital (in millions)**

	October 1, 2023		
Current Assets	\$ 227.9	\$	225.8
Current Liabilities	 117.4		109.0
Working Capital	\$ 110.5	\$	116.8

#### **Outstanding Receivable Balances from Major Customers**

Our primary source of cash flow is from our major customers, which include General Motors Company, Stellantis and Ford Motor Company. As of the date of filing this Form 10-Q with the Securities and Exchange Commission, all of our major customers are making payments on their outstanding accounts receivable in accordance with the payment terms included on their purchase orders. A summary of our outstanding receivable balances from our major customers as of October 1, 2023 was as follows (in millions):

General Motors Company	\$ 24.2
Ford Motor Company	\$ 18.1
Stellantis	\$ 20.1

#### **Cash Balances in Mexico**

We earn a portion of our operating income in Mexico. As of October 1, 2023, \$1.8 million of our \$15.7 million cash and cash equivalents balance was held in Mexico. These funds are available for repatriation as deemed necessary.

#### **Cash Flow Analysis (in millions)**

		Three Months Ended			
	Oc	October 1, 2023		October 2, 2022	
Cash Flows from (in millions):					
Operating Activities	\$	(3.9)	\$	4.7	
Investing Activities	\$	(0.9)	\$	(4.7)	
Financing Activities	\$	_	\$	1.5	

The reduction in cash provided by operating activities between periods was due to an increase in working capital requirements between periods partially offset by improved profitability in the current year period as compared to the prior year period. Working capital requirement changes between periods were comprised of the following items (in millions):

#### Increase (Decrease) in Working Capital Requirements

		Three Months Ended				
	October 1, 2023		October 2, 2022		Change	
Accounts Receivable	\$	(2.3)	\$	0.8	\$	(3.1)
Inventory	\$	3.8	\$	(5.4)	\$	9.2
Other Assets	\$	7.7	\$	5.5	\$	2.2
Accounts Payable and Accrued Liabilities	\$	4.1	\$	(0.8)	\$	4.9

Set forth below is a summary of the items impacting the change in our working capital requirements between periods:

- Accounts receivable balances decreased in the current year period due to the collection of billings for customer tooling, which were
  outstanding as of June 2023.
- The change in inventory levels reflected an increase during the current year period and a decrease during the prior year period. The current year period increase reflects an increase in purchased material balances partially offset by a reduction in finished product balances. Finished product inventory levels were reduced in order to match decreased customer shipment schedules as a result of the UAW strike, which began in September 2023. Decreased production levels and significant delays in U.S.-Mexico border crossings due to heightened security amid increased migration resulted in increased purchased material inventory. The prior year period decrease was due to a reduction in inventory balances to align with historical customer production patterns.
- The change in other assets includes an increase in balances during both the current and prior year to date periods. Customer tooling balances increased during both periods. Additionally, the current year period includes an increase in value-added tax recoverable balances related to our operations in Mexico. Customer tooling balances change due to the timing of tooling development spending required to meet customer production requirements and the timing of related customer billings for tooling cost reimbursement. Value-added tax recoverable balances increased \$7.1 million during the current period due to a temporary issue with our Mexican tax certification. We are working with the Mexican tax authority to resolve the issue. Until the issue is resolved, we will be required to pay value-added tax on all temporary part imports into Mexico. The normal timing for recovery of the tax paid resulted in a temporary increase in cash requirements.
- Accounts payable and accrued liability balances decreased in the current year period. Accounts payable balances for each period reflected the
  timing of purchases and payments with our vendors based on normal, established payment terms. The current year period reduction is
  primarily due to a change in inventory management, shipping terms, and payment terms with a significant vendor during the fourth quarter of
  our fiscal 2023. Increased account payable balances as of June 2023 that resulted from the change were paid during the current year period.

Net cash used in investing activities during the current year period of \$920,000 included capital expenditures made in support of requirements for new product programs and the upgrade and replacement of existing equipment of \$2.9 million, offset by \$2.0 million in proceeds received from the sale of our investment in VAST LLC, which sale was effective during the fourth quarter of our fiscal 2023. Net cash used in investing activities during the prior year period of \$4.7 million was due to capital expenditures made in support of requirements for new product programs and the upgrade and replacement of existing equipment.

Net cash provided by financing activities during the current year period included \$2 million of borrowings under our credit facility, which borrowings were repaid during the period resulting in no net impact to the change in cash during the period. Net cash provided by financing activities during the prior year period included \$5 million of additional borrowings under our credit facility and \$126,000 received for the exercise of stock options under our stock incentive plan and purchases under our employee stock purchase plan, partially offset by \$3.0 million of repayments of borrowings under our credit facilities and \$600,000 of dividend payments to non-controlling interests in our subsidiaries.

We anticipate total capital expenditures will be approximately \$14.0 million in fiscal 2024, of which \$2.9 million has been made through October 1, 2023, in support of requirements for new product programs and the upgrade and replacement of existing equipment.

#### **Stock Repurchase Program**

Our Board of Directors has authorized a stock repurchase program to buy back outstanding shares of our common stock. Shares authorized for buy back under the program totaled 3,839,395 at October 1, 2023. A total of 3,655,322 shares have been repurchased over the life of the program through October 1, 2023, at a cost of approximately \$136.4 million. No shares were repurchased during the three-month periods ended October 1, 2023 or October 2, 2022. Additional repurchases may occur from time to time and are expected to continue to be funded by cash flow from operations and current cash balances. Based on the current economic environment and our preference to conserve cash for other uses, we anticipate modest or no stock repurchase activity for the remainder of fiscal year 2024.

#### **Credit Facilities**

STRATTEC has a \$40 million secured revolving credit facility (the "STRATTEC Credit Facility") with BMO Harris Bank N.A. ADAC-STRATTEC LLC has a \$25 million secured revolving credit facility (the "ADAC-STRATTEC Credit Facility") with BMO Harris Bank N.A., which is guaranteed by STRATTEC. The STRATTEC Credit Facility expires August 1, 2026. The ADAC-STRATTEC Credit Facility expires August 1, 2024. We are working with BMO Harris Bank on a renewal of the ADAC-STRATTEC Credit Facility for completion in our fiscal 2024. Borrowings under either credit facility are secured by our U.S. cash balances, accounts receivable, inventory, and fixed assets. Interest on borrowings under the STRATTEC Credit Facility were at varying rates based, at our option, on the bank's prime rate or LIBOR plus 1.25 percent through February 22, 2023, SOFR plus 1.35 percent for the period February 23, 2023 through September 5, 2023, and SOFR plus 1.85 subsequent to September 5, 2023. Interest on borrowings under the ADAC-STRATTEC Credit Facility were at varying rates based, at our option, on the bank's prime rate or LIBOR plus 1.25 through February 6, 2023 and SOFR plus 1.35 subsequent to February 6, 2023. Both credit facilities contain a restrictive financial covenant that requires the applicable borrower to maintain a minimum net worth level. The ADAC-STRATTEC Credit Facility includes an additional restrictive financial covenant that requires the maintenance of a minimum fixed charge coverage ratio. As of October 1, 2023, we were in compliance with all financial covenants required by these credit facilities. There were no outstanding borrowings under the STRATTEC Credit Facility at October 1, 2023 or July 2, 2023. The average outstanding borrowings and weighted average interest rate on the STRATTEC Credit Facility loans were approximately \$132,000 and 8.5 percent, respectively, during the three-month period ended October 1, 2023. Outstanding borrowings under the ADAC-STRATTEC Credit Facility totaled \$13 million at October 1, 2023 and at July 2, 2023. The average outstanding borrowings and weighted average interest rate on the ADAC-STRATTEC Credit Facility loans were approximately \$13.0 million and 6.6 percent, respectively, during the three-month period ended October 1, 2023.

#### **Joint Ventures and Majority Owned Subsidiaries**

Refer to the discussion of Investment in Joint Ventures and Majority Owned Subsidiaries and discussion of Equity (Loss) Earnings of Joint Ventures included elsewhere in Notes to Condensed Consolidated Financial Statements within this Form 10-Q.

Item 3 Quantitative and Qualitative Disclosures About Market Risk

Not applicable.

#### Item 4 Controls and Procedures

We maintain disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended (the "Exchange Act")), that are designed to ensure that information required to be disclosed in the Company's reports filed or submitted under the Exchange Act, are recorded, processed, summarized and reported within the time periods specified in the Securities and Exchange Commission's rules and forms, and that the information required to be disclosed by the Company in reports that it files or submits under the Exchange Act are accumulated and communicated to our management, including our Chief Executive Officer and Chief Financial Officer, as appropriate to allow timely decisions regarding required disclosure. As of the end of the period covered by this report, we carried out an evaluation, under the supervision and with the participation of our management, including our Chief Executive Officer and Chief Financial Officer, of the effectiveness of the design and operation of our disclosure controls and procedures. Based on this evaluation, our Chief Executive Officer and Chief Financial Officer concluded that, as of the end of such period, our disclosure controls and procedures were effective at reaching a level of reasonable assurance. It should be noted that in designing and evaluating the disclosure controls and procedures, management recognized that any controls and procedures, no matter how well designed and operated, can provide only reasonable assurance of achieving the desired control objectives, and management necessarily was required to apply its judgment in evaluating the cost benefit relationship of possible controls and procedures. We have designed our disclosure controls and procedures to reach a level of reasonable assurance of achieving the desired control objectives.

There was no change in our internal control over financial reporting (as defined in Rules 13a-15(f) and 15d-15(f) under the Exchange Act) during our most recently completed fiscal quarter that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

#### Part II

#### Other Information

#### Item 1 Legal Proceedings

In the normal course of business, we may be involved in various legal proceedings from time to time. We do not believe we are currently involved in any claim or action the ultimate disposition of which would have a material adverse effect on our financial statements.

Item 1A—Risk Factors

There have been no material changes to the risk factors disclosed in our Form 10-K as filed with the Securities and Exchange Commission on September 7, 2023.

Item 2 Unregistered Sales of Equity Securities and Use of Proceeds—

Our Board of Directors authorized a stock repurchase program on October 16, 1996, and the program was publicly announced on October 17, 1996. The Board of Directors has periodically increased the number of shares authorized for repurchase under the program, most recently in August 2008. The program currently authorizes the repurchase of up to 3,839,395 shares of our common stock from time to time, directly or through brokers or agents, and has no expiration date. Over the life of the repurchase program through October 1, 2023, a total of 3,655,322 shares have been repurchased at a cost of approximately \$136.4 million. No shares were repurchased during the three-month period ended October 1, 2023.

Item 3 Defaults Upon Senior Securities—None

Item 4 Mine Safety Disclosures—None

Item 5 Other Information—

#### (c) Trading Plans.

During the fiscal quarter ended October 1, 2023, no director or officer of the Company adopted or terminated a "Rule 10b5-1 trading arrangement" or "non-Rule 10b5-1 trading arrangement," as each term is defined in Item 408(a) of Regulation S-K.

#### Item 6 Exhibits

- (a) Exhibits
- 3.1 Amended and Restated Articles of Incorporation of the Company (Incorporated by reference from Exhibit 3.1 to the Form 10-K filed on September 7, 2017.)
- 3.2 <u>Amendment to Amended and Restated Articles of Incorporation of the Company (Incorporated by reference from Exhibit 3.1 to the Form 10-Q report filed on November 7, 2019.)</u>
- 3.3 Amendment to Amended and Restated Articles of Incorporation of the Company (Incorporated by reference from Exhibit 3.1 to the Form 8-K report filed on October 21, 2021.)
- 3.4 Amended By-laws of the Company (Incorporated by reference from Exhibit 99.3 to the Form 8-K filed on October 7, 2005.)
- 10.1 Amendment No. 9 to STRATTEC Credit Agreement, dated as of August 22, 2023, between STRATTEC SECURITY CORPORATION and BMO Harris Bank N.A., as lender (Incorporated by reference from Exhibit 10.1 to the Form 8-K filed on August 25, 2023,)
- 31.1 Rule 13a-14(a) Certification for Frank J. Krejci, President and Chief Executive Officer
- 31.2 Rule 13a-14(a) Certification for Dennis Bowe, Chief Financial Officer
- 32 <sup>(1)</sup> 18 U.S.C. Section 1350 Certifications
- The following materials from STRATTEC SECURITY CORPORATION's Quarterly Report on Form 10-Q for the fiscal quarter ended April 2, 2023 formatted in XBRL (eXtensible Business Reporting Language) and furnished electronically herewith: (i) Condensed Consolidated Statements of Income and Comprehensive Income (Loss); (ii) Condensed Consolidated Balance Sheets; (iii) Condensed Consolidated Statements of Cash Flows; and (iv) Notes to Condensed Consolidated Financial Statements. XBRL Instance Document the XBRL Instance Document does not appear in the Interactive Data File because its XBRL tags are embedded within the Inline XBRL document.
- The cover page from the Company's Quarterly Report on Form 10-Q for the quarter ended October 1, 2023, formatted in Inline XBRL (included in Exhibit 101).

This certification is not "filed" for purposes of Section 18 of the Securities Exchange Act of 1934, as amended, or incorporated by reference into any filing under the Securities Act of 1933, as amended, or the Securities Exchange Act of 1934, as amended.

#### **SIGNATURE**

Pursuant to the requirements of the Securities Exchange Act of 1934, the registrant has duly caused this report to be signed on its behalf by the undersigned thereunto duly authorized.

STRATTEC SECURITY CORPORATION (Registrant)

(Principal Accounting and Financial Officer)

## CERTIFICATION OF CHIEF EXECUTIVE OFFICER PURSUANT TO SECTION 302 OF THE SARBANES-OXLEY ACT OF 2002

#### I, Frank J. Krejci, certify that:

- 1. I have reviewed this quarterly report on Form 10-Q of STRATTEC SECURITY CORPORATION;
- 2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
- 3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
- 4. The registrant's other certifying officer and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
  - (a) designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
  - (b) designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
  - (c) evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
  - (d) disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
- 5. The registrant's other certifying officer and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of registrant's board of directors (or persons performing the equivalent functions):
  - (a) all significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
  - (b) any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.

Date: November 9, 2023
